Cedar Demo County

FICTIONAL DEMONSTRATION - All places, events, and award values are invented.

01 / OVERVIEW

County at a glance

County figures are compared with an invented Cedar State baseline.

ILLUSTRATIVE TERRAIN / NOT A REAL MAP

POPULATION	HOUSEHOLDS	MEDIAN HOUSEHOLD INCOME
12,700	**4,800**	**$52,000**
State 1,280,000	State 493,000	State $61,500

02 / PEOPLE

Support-needs indicators

Percent of the relevant population or households; bases vary by indicator.

INDICATOR	COUNTY / STATE	DIFFERENCE
People under 5 Share of all residents	7.1% / 5.9%	+1.2 pp
People age 65 and older Share of all residents	19.4% / 16.8%	+2.6 pp
People of color, including Hispanic Share of all residents	32.0% / 27.0%	+5.0 pp
Limited English proficiency Share of residents age 5+	4.8% / 3.2%	+1.6 pp
Adults without high school diploma Share of adults age 25+	13.2% / 10.4%	+2.8 pp
Families in poverty Share of families	14.1% / 10.0%	+4.1 pp
Renter occupied homes Share of occupied homes	39.0% / 32.0%	+7.0 pp
Households without a vehicle Share of households	8.2% / 5.1%	+3.1 pp
People with a disability Share of civilian noninstitutionalized residents	17.8% / 14.3%	+3.5 pp
People without health insurance Share of residents under 65	12.1% / 9.4%	+2.7 pp

Difference is in percentage points: county minus state. These group-level rates do not identify any person's needs.

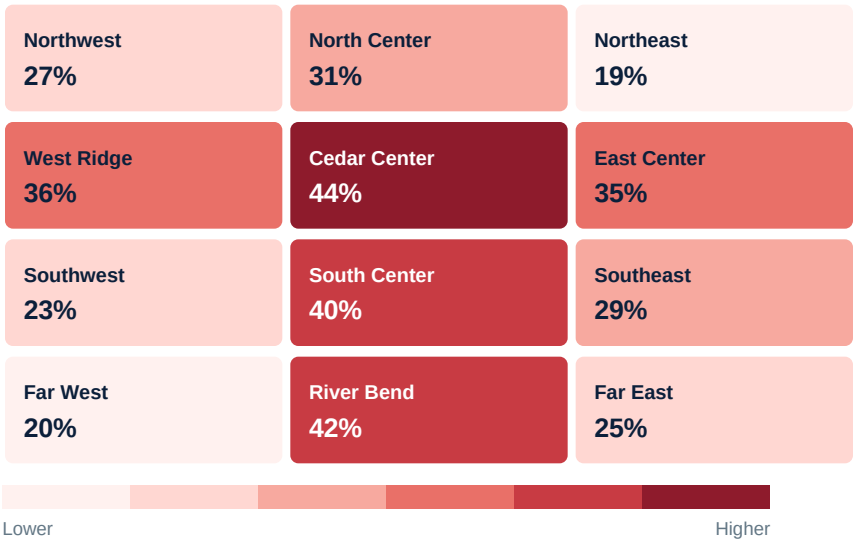
Vulnerability map and disaster history

03 / PLACE

Schematic vulnerability heat map

Darker red indicates a higher modeled support-needs share.

12 INVENTED PLANNING ZONES



MAP READING GUIDE

Cedar Center has the highest practice score at 44%.

Tiles are not real neighborhoods or census tracts. Scores are invented and are not calculated from the countywide indicators.

04 / HISTORY

Invented disaster events

Type, incident duration, impacts, and awarded PA / IA amounts.

2019 Severe storm and straight-line wind

3 days PA $0.95M | IA $0.25M

42 homes damaged; 11 road closures; 4-day power interruption in two zones.

2021 River flooding

12 days PA $2.90M | IA $0.80M

310 homes affected; water plant access disrupted; 28 miles of roads damaged.

2023 Tornado outbreak

2 days PA $2.45M | IA $0.65M

145 structures damaged; 2 shelters opened; debris removal lasted 19 days.

2025 Winter storm and ice

7 days PA $2.10M | IA $0.45M

32% of customers lost power; 6 bridges closed; 3 warming centers opened.

Recovery funding

05 / FUNDING

Where the practice dollars went

PA, IA, and other grants are separate funding streams.

PUBLIC ASSISTANCE	INDIVIDUAL ASSISTANCE	OTHER GRANTS
$8.40M	$2.15M	$4.20M

PUBLIC ASSISTANCE BY CATEGORY

Awarded dollars for eligible public work in the fictional events

OTHER EMERGENCY-RELATED GRANTS

HMGP | Hazard Mitigation Grant Program — $1.60M (2022)
Elevate flood-prone homes and acquire repetitive-loss parcels.

BRIC | Building Resilient Infrastructure and Communities — $2.10M (2024)
Drainage upgrades and backup power for the water plant.

EMPG | Emergency Management Performance Grant — $0.50M (2025)
Planning, exercises, and emergency operations center equipment.

IA supported individuals and households; the amounts above are invented examples, not FEMA award records.

Future hazard planning

06 / FUTURE RISK

Illustrative hazard index

Relative planning scores from 0 to 100; not probabilities or forecasts.

HOW TO INTERPRET THESE SCORES

The likelihood labels and index values are fictional scenario assumptions. A real county profile needs documented hazard models, exposure data, a time horizon, and expert review.

SOURCE AND UPDATE NOTES

County facts: data/counties.csv. Comparisons, zones, events, grants and hazards: data/cedar_profile.json. Data as of 2026-01-01. This PDF is a snapshot; edit the source files and regenerate it to reflect future changes.
